

SUN Business Network Company Commitments

As SUN countries begin recruiting companies into their national nutrition plans the network continues to expand. Globally, there are 268 companies publicly committing to scaling up nutrition both through our global platform and the growth of national platforms:

- 49 multinational companies with global commitments which will be tracked through the Global Nutrition Report.
- 219 companies have made, or have publicly pledged to develop, commitments at national level, including 200 in SBN countries, where SBN is supporting countries to build accountability into their national platforms.
- In sum, SBN's business members will be reaching a total of **1.3billion** beneficiaries between 2013 and 2020, equivalent to **166million** each year until 2020.

The network's growth reveals roles for companies of all sizes and from all sectors. SBN members range from multinational to SMEs and contribute competencies from industries, including:

Company Commitments (areas)	Number of commitments	Total Reach (between 2013-2020)
Nutritious foods (including fortification)	41	253,368,000
Agriculture, Bio-fortification, Dairy; Agricultural inputs	30	6,534,000
Workplace	30	1,221,584

Limited			<p>technology transfer to the government and non-governmental sector with the end goal of bringing improvement in the lives of the general public. All such projects are covered under Ufone's M-Governance initiative and any development and maintenance costs for all systems crated for these purposes are solely born by Ufone. Ufone has collaborated with Police departments in all provinces to provide mobile bases vehicle verification, record management and traffic chalaan systems as well as Emergency Alert System for educational institutions with the goal of making the police departments tech savvy. Similarly, Ufone has collaborated with Excise and Taxation Punjab to make the Vehicle Registration System completely electronic.</p> <p>Ufone's M-Governance initiative has also been very active in the domain of health, education and nutrition, collaborating with Sindh Education Department, Livestock and Dairy Department Punjab, Teacher's Education and Vocational Training Association, Capital Development Authority Islamabad and many others where it has provided these organizations with easy to user mobile based solutions which are being used for a variety of services ranging from sending educational material to school kids in Tahrparker to enabling farmers to better manage the nutrition and vaccination of their livestock across Punjab. Ufone's financial arm, Upaisa also works in collaboration with M-Governance team for disbursement of loans, grants and subsidies to farmers across Punjab for various initiatives free of cost. Similarly, the complete educational management solution devised for Sindh Education Department not only enables the ministry to communicate with teachers and students but also allows them to push cash rewards for attendance and performance which are also monitored by Ufone's System.</p> <p>All of the services that have previously been developed will be fully at the disposal of SUN Business Network to use with any customization they wish to make to them. Furthermore, Ufone also gives its full commitment to collaborate with SUB Business Network and World Food Program to develop any new solutions which can help changing the nutritional landscape in Pakistan. Sticking to the core philosophy of the M-Governance Initiative, all these technical assistances will be Ufone's contribution to the initiative and hence will be free of cost.</p>
