

SUN Business Network Company Commitments

As SUN countries begin recruiting companies into their national nutrition plans the network continues to expand. Globally, there are 268 companies publicly committing to scaling up nutrition both through our global platform and the growth of national platforms:

- 49 multinational companies with global commitments which will be tracked through the Global Nutrition Report.
- 219 companies have made, or have publicly pledged to develop, commitments at national level, including 200 in SBN countries, where SBN is supporting countries to build accountability into their national platforms.
- In sum, SBN's business members will be reaching a total of **1.3billion** beneficiaries between 2013 and 2020, equivalent to **166million** each year until 2020.

The network's growth reveals roles for companies of all sizes and from all sectors. SBN members range from multinational to SMEs and contribute competencies from industries, including:

Company Commitments (areas)	Number of commitments	Total Reach (between 2013-2020)
Nutritious foods (including fortification)	41	253,368,000
Agriculture, Bio-fortification, Dairy; Agricultural inputs	30	6,534,000
Workplace	30	1,221,584
Behaviour Change, Marketing& Advertising	16	
Mobile Communications, Information Technology	14	3,500,000
Food packaging and Processing	13	
Financial/Professional services	12	
Nutrition Research	10	
Nutrition Education	8	2,333,000
Extractives	5	
Micronutrient supplements	4	61,300,000
Consumer insight and research	4	
Food Safety	4	
School feeding programmes	3	500,000
Supply Chain and Logistics	3	
Water, Sanitation and Hygiene (WASH)	3	1,005,500,000
Total	200	1.3 billion
Total each year, between 2013-2020	-	166 million

Key	Total
Global Companies	49
National Companies (within global list)	19
National Companies (in SUN Countries)	281
Total	349

Company	Type of Company	Country	Reach and Commitments in developing and emerging markets	Competencies
1. Acciona	Food Products / Brands (Renewable energy and infrastructure?)	Spain	By 2016: 33,000 with workforce policy	Workforce policy

Teck	Life Sciences / Ingredients	Canada	<ul style="list-style-type: none"> As member of the Zinc Alliance for Child Health (ZACH), by 2015 aims to reach 10,650,000 additional diarrhoea episodes treated with zinc and ORS in our African project countries, and 608,680 diarrhoea episodes treated in India: In 2015, ZACH (Zinc Alliance for Child Health) treated 20 million additional diarrhoea episodes with zinc and ORS (Oral Rehydration Salts) in our African project countries and India. Since the launch of ZACH more than 44 million episodes of childhood diarrhoea among children under five have been treated in African project countries and India. In addition, UNICEF estimates that in India, treatment with zinc and ORS helped save the lives of nearly 15,000 children who presented with diarrhoea in 2015, 20,000 in 2016 and 43,000 children since the program launch. Aims to increase zinc usage in fertilizer by 20,000 tons in the next year, so approximately 6 million children in China will see improved zinc nutrition in their diet. In 2015, we contributed to achieving this commitment in partnership with the International Zinc Association and China's Ministry of Agriculture when 20,000 additional tonnes of zinc were used in fertilizer, which was applied to more than 2 million hectares of crop land. This translated into improved zinc nutrition in the diet of more than 6 million children in China. To date, the program has increased the use of zinc in fertilizer by 60,000 tonnes, which has been applied to 6 million hectares of crop land and improved nutrition for more than 19 million children in China. The 2016 program is expected to add another additional 20,000 tonnes per year of zinc for use in fertilizers which will further support child health. 	Nutritious foods; Micronutrient supplements
46. Tetra Laval	Food Processing	Switzerland	<ul style="list-style-type: none"> Continue to support implementation of school feeding programmes worldwide, and to report the number of children receiving milk/other nutritious drinks served in Tetra Laval's packages through SFP's, annually Report the implementation of the Dairy Hub model in any new country/area, annually Education of food safety and nutrition of unprocessed milk Reach consumers with affordable milk/dairy to reduce health costs; continue to support food processors, governments and other organisations through public-private partnerships to develop a country's food value chain and improve availability to sufficient nutrition 	Nutritious foods (dairy); Food packaging and processing; Food safety

196. Ufone: Pak Telecom Mobile Limited	Telecommunication	Pakistan	<p>Ufone: Pak Telecom Mobile Limited, is an active participant in the domain of Public Private Partnership and technology transfer to the government and non-governmental sector with the end goal of bringing improvement in the lives of the general public. All such projects are covered under Ufone's M-Governance initiative and any development and maintenance costs for all systems created for these purposes are solely born by Ufone. Ufone has collaborated with Police departments in all provinces to provide mobile bases vehicle verification, record management and traffic chalaan systems as well as Emergency Alert System for educational institutions with the goal of making the police departments tech savvy. Similarly, Ufone has collaborated with Excise and Taxation Punjab to make the Vehicle Registration System completely electronic.</p> <p>Ufone's M-Governance initiative has also been very active in the domain of health, education and nutrition, collaborating with Sindh Education Department, Livestock and Dairy Department Punjab, Teacher's Education and Vocational Training Association, Capital Development Authority Islamabad and many others where it has provided these organizations with easy to user mobile based solutions which are being used for a variety of services ranging from sending educational material to school kids in Tahrparker to enabling farmers to better manage the nutrition and vaccination of their livestock across Punjab. Ufone's financial arm, Upaisa also works in collaboration with M-Governance team for disbursement of loans, grants and subsidies to farmers across Punjab for various initiatives free of cost. Similarly, the complete educational management solution devised for Sindh Education Department not only enables the ministry to communicate with teachers and students but also allows them to push cash rewards for attendance and performance which are also monitored by Ufone's System.</p> <p>All of the services that have previously been developed will be fully at the disposal of SUN Business Network to use with any customization they wish to make to them. Furthermore, Ufone also gives its full commitment to collaborate with SUB Business Network and World Food Program to develop any new solutions which can help changing the nutritional landscape in Pakistan. Sticking to the core</p>	Telecommunications

			philosophy of the M-Governance Initiative, all these technical assistances will be Ufone's contribution to the initiative and hence will be free of cost.
