

SUN Business Network Company Commitments

As SUN countries begin recruiting companies into their national nutrition plans the network continues to expand. Globally, there are 186 companies publicly committing to scaling up nutrition both through our global platform and the growth of national platforms:

- 45 multinational companies with global commitments which will be tracked through the Global Nutrition Report.
- 141 companies have made, or have publicly pledged to develop, commitments at national level, including 122 in SBN countries, where SBN is supporting countries to build accountability into their national platforms.
- In sum, SBN's business members will be reaching a total of **1.3billion** beneficiaries between 2013 and 2020, equivalent to **166million** each year until 2020.

The network's growth reveals roles for companies of all sizes and from all sectors. SBN members range from multinational to SMEs and contribute competencies from industries, including:

Company Commitments (areas)	Number of commitments	Total Reach (between 2013-2020)
