

Corporate social Responsibility

InnoFaso is engaged to a Corporate Social Development policy,

In environmental way, the company has policy to reduce their wastes or to manage the produced wastes by sorting and re-valorization.

Some wastes such soya bean oil tins, peanut boxes are re-sold to constitute fund for employees; these funds are used for employees supporting in case of wedding, baptism and other specifics needs.

In social way, InnoFaso have a training plan for its collaborators. English course are organized for collaborators once a week to improve their English level as Burkina Faso is a French speaking country.

In societal way, InnoFaso make some effort promoting local suppliers.

InnoFaso works in quality way with some local supplier like Sosuco (for sugar), to reach their specifications (which are make basis on international norms). Today's this supplier is able to provide all others members of Plumpy'Field.

Another example of specific work with supplier is with a new company, initially working with soya (specialize on the production of soybean meal). Through to the support of InnoFaso, this company produce soybean oil in accordance with InnoFaso 'specifications.

InnoFaso developed this kind of partnership with others sub regions suppliers based in Ivory Coast, Ghana. The objective is to source as much as possible with local or sub region ingredients to maximize our impact on local economies.
